

New Source Review newspaper advertisements for construction permit applications, April 6, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: April 4, April 5, or April 6, 2006. Public notices are generally published every two weeks. The previous publication of public notices was March 21 – 23, 2006.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is C & C Concrete Products, Inc. with a mailing address of 193 Towe String Road, Jacksboro, TN 37757. They seek to obtain an air contaminant permit (Division identification number: 07-0081-01/58873) for construction of a Concrete Batch Plant at the same address. This proposed operation would consist of a cement silo, a flyash silo, and associated equipment used in concrete batching. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the Campbell County “Lafollette Press”--published once on or before Thursday, April 6, 2006.

The applicant is Hamblen County/Morristown Solid Waste System with a mailing address of P.O. Box 2108, Morristown, TN 37816. They seek to obtain an air contaminant permit (Division identification number: 32-0189-01/58995) for an Air Curtain Destructor located at 3849 Sublett Road, Morristown, TN 37813. This existing operation consists of an air curtain destructor used to burn brush and wood waste. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. T. Blake is the assigned Division person.

For the Hamblen County “Citizen Tribune”--published once on or before Thursday, April 6, 2006.

The applicant is Redmon Asphalt, Inc. with a mailing address of 1966 Lawton Road, Selmer, TN 38375. They seek to obtain an air contaminant permit (Division identification number: 55-0064-01/59014) to modify an Asphalt Plant located at 1966 Lawton Road, Selmer, TN 38375. This existing operation consists of a rotary

dryer, elevator, hot screens, hot mix bins, asphalt batch mixer, hot mix asphalt storage, truck load-out, aggregate bins, conveyors, aggregate storage piles, and associated equipment used to process and ship asphalt. The requested modification is to apply the State's new standard procedure for asphalt plants. This would decrease the total air contaminant emissions, however, carbon monoxide would increase due to updated emission factors. This source uses baghouse control for particulate emissions. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the McNairy County "Independent-Appeal"--published once on or before Thursday, April 6, 2006.

The applicant is Elliot Pet Services with a mailing address of 277 Grouse Ridge Rd., Harriman, TN 37748. They seek to obtain an air contaminant permit (Division identification number: 65-0054-01/59001) for construction of an Animal Crematory at the same address. This proposed operation would consist of a multiple chamber modular cremation retort and containers. Number 2 fuel oil would be used for fuel. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the "Morgan County News"--published once on or before Thursday, April 6, 2006.

The applicant is Cumberland Family Services, Inc. with a mailing address of P.O. Box 717, Cookeville, TN 38501. They seek to obtain an air contaminant permit (Division identification number: 71-0230-01/59065) for construction of a Crematory Operation at 209 Hub Circle, Algood, TN 38506. This proposed operation would consist of a natural gas-fired human crematory (incinerator). An afterburner would be used for pollution control. Cumberland Family Services, Inc. was previously permitted and doing business as Upper Cumberland Cremation Services. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Putnam County "Cookeville Herald-Citizen"--published once on or before Thursday, April 6, 2006.

The applicant is Miller and Sons, Inc. with a mailing address of 555 West Third Avenue, Oneida, TN 37841. They seek to obtain an air contaminant permit (Division identification number: 76-0082-01/58889) for construction of an Asphalt Batch Plant at 16906 Alberta Street, Oneida, TN 37841. This proposed operation would consist of sand and gravel stockpiles, continuous type mixer, and associated equipment used to produce asphalt material. Number 2 fuel oil would be used for fuel. A wet scrubber would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the "Scott County News"--published once on or before Thursday, April 6, 2006.

The applicant is Johnson Matthey, Inc. with a mailing address of 1246 Airport Road, Sevierville, TN 37862. They seek to obtain air contaminant permits for construction of air contaminant sources located at the same address, as follows:

(1) Two Electric Furnaces (Division identification number: 78-0096-05/58968). This proposed operation would consist of a two electric furnaces and associated equipment used for melting/alloying of metals. A wet scrubber

would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

(2) Pouring Boards (Division identification number: 78-0096-06/58969). This proposed operation would consist of pouring boards for cooling and breaking molten metal alloys. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the Sevier County "Mountain Press"--published once on or before Thursday, April 6, 2006.

The applicant is Welmont Health System/Bristol Regional Medical Center with a mailing address of One Medical Park Boulevard, Bristol, TN 37662. They seek to obtain an air contaminant permit (Division identification number: 82-0246-01/58414) for modification of a Boiler Operation located at the same address. This existing operation consists of a boiler and associated equipment used to produce steam for use in the Medical Center. No. 2 fuel oil and Natural gas are used for fuel. The requested modification is to update the permitted emissions. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Martin is the assigned Division person.

For the Sullivan County "Bristol Herald Courier "--published once on or before Thursday, January 6, 2006.

The applicant is Polymer Industrial Products, Inc. with a mailing address of P.O. Box 310, Piney Flats, TN 37686. They seek to obtain air contaminant permits for operation of air contaminant sources located at 688 Industrial Park Road, Piney Flats, TN 37686, as follows:

(1) Surface Coating Operation (Division identification number: 82-0217-02/59018). This existing operation consists of a spray booth used to coat metal rims. Exhaust filters are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted from this source. Ms. J. Aslinger is the assigned Division person.

(2) Dip Tank (Division identification number: 82-0217-03/59019). This existing operation consists of a solvent dip tank used in the finishing of metal rims. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted from this source. Ms. J. Aslinger is the assigned Division person.

(3) Solvent Application (Division identification number: 82-0217-04/59020). This existing operation consists of solvent materials used to prep rubber compounds. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted from this source. Ms. J. Aslinger is the assigned Division person.

For the Sullivan County "Kingsport Times-News"--published once on or before Thursday, April 6, 2006.
